These medallions have excellent 3D high relief sports artwork worked into the surface of the medallion. Excellent value for money. If your sport/activity isn't represented here, use a "plain" medallion and an activity centre to create your theme. We have a wide range of standard range of centres, covering most themes and activities. Alternatively, provide us with the details and we will make you a custom centre\*.

The reverse side of each medallion is used for engraving.  
Pricing will include engraving, an activity centre, and a coloured ribbon.

\* Custom centres will attract a one-time set-up/artwork fee (enquire in store).
