We produce quality plaques "in-house."

A standard range of 9 sizes are produced in a rosewood woodgrain finish or a walnut finish.. Our sizes and code numbers are shown.

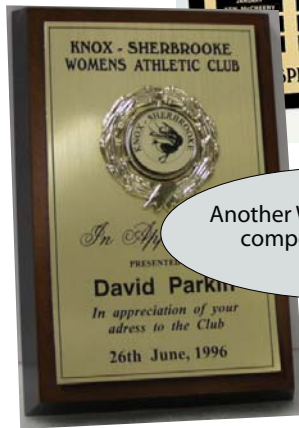

Because we produce our own, we can make a plaque to any size, - it just may take a little longer. If you need a special size, we can make it. Call in to our showroom to see our display to see the range of plaques with different materials, layouts etc. possible. Let us design and quote

Any plaque can be configured as a "perpetual"

Detail engraving possible, including signatures. Range of materials and finishes are possible

This sample shows colour sublimation print on metal plate WP2

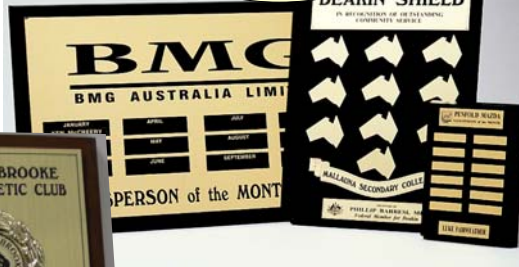

Another WP2 with mounted component with logo

This is a WP4 size, brass look plate with black engraving. This is most common

This is a WP3 size, brass look late, logo directly engraved Great detail possible

Special engraving plates and special wood finishes are possible. Let us quote

Laser engraving directly into wood surface. Gives great depth. Plate area cut out for plate to be inserted with engraving

Plaques can have mounted objects
